STATINTL

Mr. W. E. Reynolds  
Commissioner  
Public Buildings Service  
General Services Administration  
Washington 25, D. C.

Dear Mr. Reynolds:

There is attached copy of letter dated December 20, 1951 from Mr. W. B. Montgomery, Manager, West Area, Region 3, Public Buildings Service, General Services Administration. As you will note, this letter states that certain air conditioning equipment was removed from Temporary I and J Buildings prior to occupancy by the Central Intelligence Agency, and indicates that funds will not be available this spring for the purchase of such equipment to be installed in these buildings.

You are, of course, aware that the working conditions in temporary buildings during the summer months are intolerable and we receive many complaints from our activities in such buildings that are not air conditioned. I would appreciate your taking a personal interest in this situation for the purpose of determining whether or not Public Buildings Service can take action which would alleviate the condition.

Will you please advise me as to what may be done in this connection.

Very truly yours,

Walter Reid Wolf  
Deputy Director
